Bees are in trouble and they need YOU to make a difference. The Häagen-Dazs Honey Bee Haven Garden is affiliated with the UC Davis Department of Entomology and Nematology’s Laidlaw Honey Bee Research Facility. A paid student internship to assist with our research and outreach programs is available.

**Details:**

- Assist with data collection and compilation for research projects looking at aspects of bee use of horticultural plants
- Serve as a docent for school group garden tours and other public programs. Complete an outreach project of your design.
- Maintain garden plants and infrastructure
- Flexible hours: 10 hours/week academic year; 20 hours/week in the summer
- Apply though the Internship and Career Center (icc.ucdavis.edu) for position ID # 836364

Application deadline is March 16
