

Directions to the Honey Bee Haven

The Haven is located on the western edge of the UC Davis campus near the University airport at 1 Bee Biology Road. We have free parking with room for about 20 vehicles; there is one handicapped space. There is no bus turnaround. If you are travelling in a large vehicle, you may pull in and back out or you may turn around at the Hopkins Road/Bee Biology Road intersection and back into the garden. There is also room to park at the intersection and walk to the garden.

Directions:

From points west of Davis on I-80: exit at Pedrick Road and go 3.6 miles north and turn right on Hutchison Drive. Go 0.7 miles and turn right onto Hopkins Road. Take the first left and pass the tan building. You will see the garden on your right.

From points north, south, or east of campus: take Highway 113 to Hutchison Drive. Go 1.3 miles west and turn left onto Hopkins Road. Take the first left and pass the tan building. You will see the garden on your right. The traffic circles on Hutchison can be confusing. To stay on Hutchison, go $\frac{1}{4}$ of the way around the first circle and $\frac{3}{4}$ of the way around the second.
